YOUR BUSINESS?

HOW CAN COBB

# EMPOWER

YOUR BUSINESS?

From print and document management to worry-free managed services, Cobb Technologies provides an experienced approach to the proficient services and smart solutions businesses expect.

## PRINTER/SCANNERS

Offering a full line of printers, copiers, and scanners, Cobb Technologies supplies solutions that drive efficiency and productivity. From award-winning products and industry-leading manufacturers, Cobb's hardware line is hand-picked to exceed our clients expectations. Whether it's large format, production print, or multifunctional printers, businesses are empowered with a "right-fit" solution to their everyday needs.

## DOCUMENT MANAGEMENT

At Cobb Technologies we save our clients time and money by optimizing their data. Using industry-leading software solutions and a consultative approach, Cobb delivers workflow, content, and even process management opportunities that make data intelligent. The document management product line helps eliminate printed material expenditures while delivering long-term business value.

## MANAGED SERVICES

Managed Services are imperative in today's business environment. By offloading the demand of an internal IT department, businesses are free to focus on core values and not the functionality of their network. CobbCare Managed Services is a comprehensive IT partnership between Cobb Technologies and the clients we support.

## About

Since 1990, Cobb Technologies has supplied businesses with the products and services they need to enhance operations. Today, we continue to empower our clients by providing an integrated approach to technology solutions that drive efficiency and productivity.

### experienced.

At Cobb Technologies, we use experience to solve the everyday problems our clients face. In addition to over 25 years of hands-on industry knowledge, we remain on the cutting edge of new, innovative solutions that provide value in business. Serving clients nationwide, we proudly use our industry expertise to help companies of any size save time and resources.

### proficient.

Whether it's our robust catalog of handpicked hardware, intuitive document management software, or the worry-free support of managed IT services, Cobb Technologies delivers results. Offering a strategic lineup of products and services, our value suite enhances business operations. By matching needs with expectations, we outfit our clients with industry-leading products and services developed around the technology demands of today.

### smart.

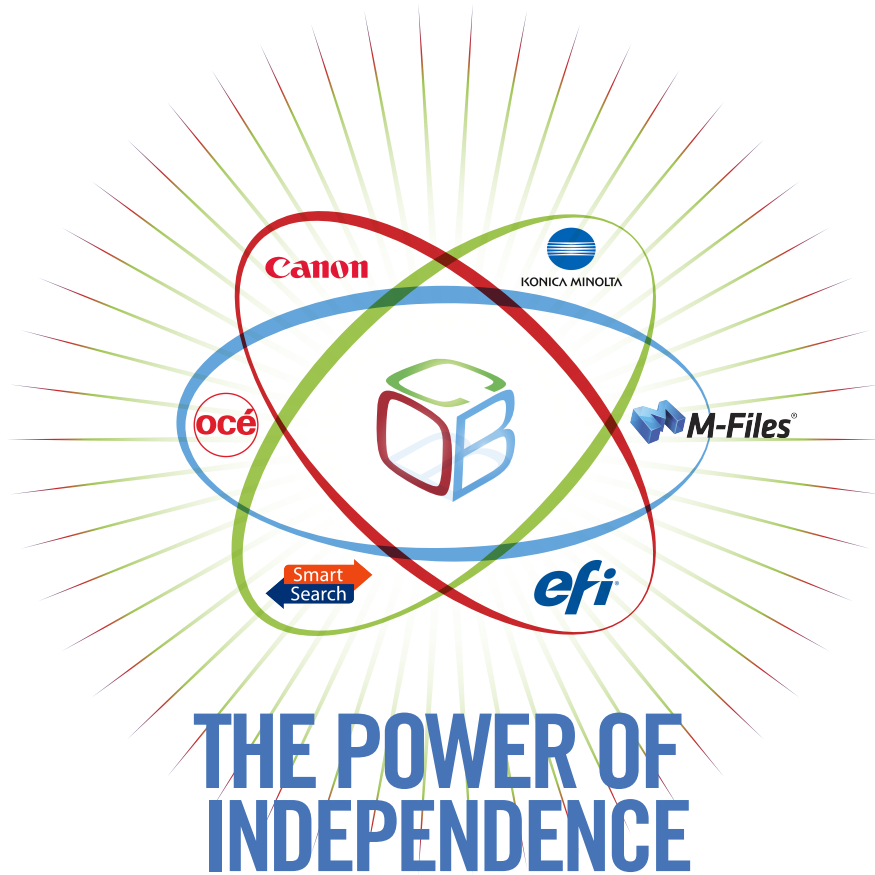

We understand that every business is different, with unique challenges that require smart solutions. Cobb's team is meticulously trained and certified to operationalize solutions for our clients. With the prowess of business improvement specialists, industry-savvy account managers, and manufacturer-certified technicians, ingenuity at Cobb Technologies is what keeps our clients moving forward.

- 24/7 e-info™ portal provides around-the-clock account management
- Knowledgeable remote support from our SIMS Technical Center staff
- Expert service from factory-certified field technicians
- Faster results with GPS enabled service vehicles
- Excellent customer service backed by our Net Promoter Score™

At Cobb Technologies 2015 means 25 years of business! That's 25 years of empowering our customers with the latest and greatest in print, document management, and now managed IT. Needless to say, we've grown up with the industry to remain innovative, competitive, customer-centric, and still proudly independent.
