

DO MORE! PRODUCTION PRINT

DO MORE!

PRODUCTION CLIENTS ARE A DIFFERENT KIND OF ANIMAL. THEY REQUIRE SUPERIOR PERFORMANCE, BRILLIANT COLOR, SCALABLE APPLICATIONS, AND THE NEVER-LET-YOU-DOWN SUPPORT OF CERTIFIED SPECIALISTS.

Production print equipment is engineered for businesses that require high volume printing and demand consistent quality, speed, and reliability. With equipment that drives efficiency and productivity, the production print line at Cobb Technologies is hand selected from award-winning manufacturers to ensure it meets and exceeds your organization's expectations and demands.

Our robust catalog of equipment, finishers, and color management options empower our clients with a right-fit solution to their ongoing production needs. From superb color management applications to the latest in finishing components for folding, stapling and hole punching, and booklet making, Cobb production print equipment is where the rubber meets the road.

POWER + SPEED

The production product line consistently provides outputs at highest possible caliber of quality and speed. With the expectation of superior document control from the first print to the last, our product line combines industry-leading hardware with user-friendly software components that adapt to your needs. We offer machines that scream performance with up to 250 pages per minute, while maintaining color quality at 1,200 x 1,200 dpi.

Our machines provide specific customizations for jobs of any size. With scalable paper trays that can hold up to 5,000 sheets of paper, you're ready to run small jobs and large, high-volume jobs with the click of a button. In addition, each tray is adjustable to fit different size media, from postcards to 13 x 19 and other special sized media, empowering you with the tools your business needs for any high-volume print project.

FINISHING OPTIONS:

- + Z-FOLD
- + STAPLE
- + SADDLE STITCH
- + BINDING
- + HOLE-PUNCH
- + INSERT COVERS
- + BOOKLET MAKER
- ...AND MORE

SPECTACULAR COLOR

Color is a must-have in production print. Marketing and advertising materials use color to evoke emotion and drive action. Whether it's flyers, booklets, manuals, newsletters, or brochures, Cobb Technologies works with different color management systems to ensure every print shines with perfection. Our color management assurance is backed by software that ranks highest in customer satisfaction and on-demand print capabilities. With color applications like Fiery™ managing the quality of your print job couldn't be easier. From small runs, to high-volume jobs, every print will come alive with the power of full-color printing.

COLOR MANAGEMENT:

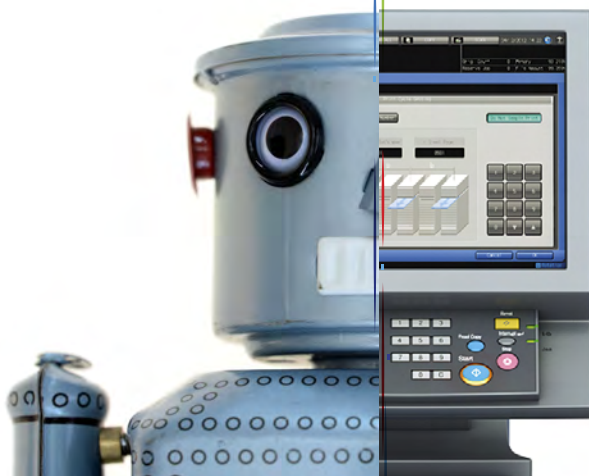

- + HIGH COLOR MANAGEMENT
- + FIERY COLOR MANAGEMENT TOOLS
- + CREO COLOR MANAGEMENT TOOLS
- + COLOR CONSISTENCY AND COLOR CORRECTION
- + CMYK AND RGB WORKFLOW AND COLOR SPACES
- + CMYK AND RGB PROFILES AND RENDERING INTENTS
- + GRAPHIC DESIGNERS TO OPTIMIZE FIERY PRINT QUALITY
- + USING PANTONE AND CUSTOM COLOR LIBRARIES
- + APPLYING CALIBRATION SETS TO OUTPUT PROFILES
- + CREATING A MEDIA CATALOG FOR HOUSE STOCKS
- + CREATING MEDIA DEFINED OUTPUT PROFILES FOR COLOR CONSISTENCY

MONOCHROME:

B&W printing with high speed production equipment is ideal for everyday documents. From manuals to instruction booklets, B&W printing requires consistency from the first page to the last. With active greyscale calibration and up to 250 pages per minute, printing everyday B&W documents demands the power of a workhorse digital machine that's in it for the long-haul.

WORKFLOW:

- + JOB MASTERY
- + MULTIPLATFORM OPERATION
- + ADVANCED DRIVERS
- + TASK SPLITTING
- + AUTOMATED WORKFLOW
- + CUSTOM INTERFACE

**A U T O M A T I O N**

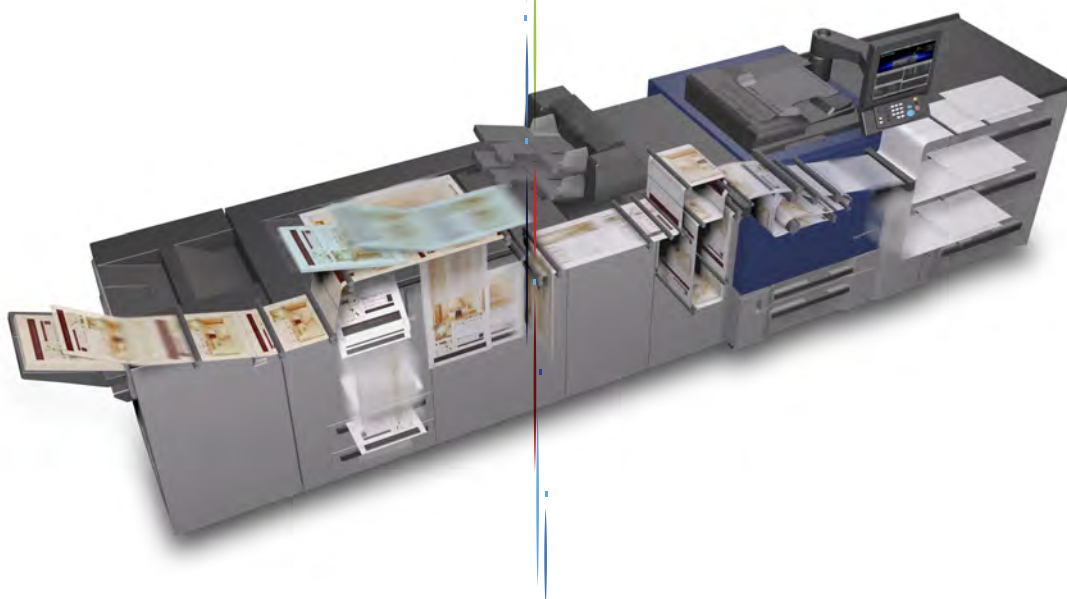

Variable data sets prints apart, enabling you to produce simple and complex jobs that incorporate personalized messaging. With variable data applications your machine can create customer mailers, letters, invoices and other documents, all to highly targeted specifications like location, age, and even gender. Variable data can create print jobs that use custom graphics and text, insert additional pages, all from programs like Excel without having to stop the machine. When you think variable data, think smart printing that makes your data come alive.

HIGH PERFORMANCE

Production print jobs can vary in size, shape, color, and speed. But no matter the output, the equipment is expected to perform. Our certified specialists are here to ensure the equipment you use continually runs at peak performance. We support you from standard, single sheet prints, to thousand-order copies, bindings and anything else you need to drive productivity and efficiency.

RELIABILITY:

- + LOCAL DELIVERY AND SETUP
- + MANUFACTURER PARTS AND SERVICE
- + ON-DEMAND SOFTWARE SERVICE AND SUPPORT
- + FACTORY-CERTIFIED FIELD TECHNICIANS

PRODUCTION SYSTEMS ANALYST

The Production System Analyst works one-on-one with our clients to ensure functionality, usability, and quality. The Analyst takes a hands-on approach to training from high-level color management software applications to finishers. Whether it's workflow, automation, media calibration, image processing, variable data printing (VDP), or web-to-print, Cobb's Analyst enables and tests the necessary functions required by the client. In addition, the Analyst checks for environmental conditions determine what effect the equipment's location will have on the performance and life of equipment.

ANALYST USABILITY TRAINING

To ensure users understand how to operate the new equipment, the Production Systems Analyst thoroughly trains individuals on key applications and functions like:

- + End User Fiery Driver and Creo Functionality for automatic print jobs via hot folders and virtual printers.
- + Media Compatibility and tray configuration for regular and special print jobs like posters, envelopes, and booklets.
- + Key Operator Job and Queue Management training to create print groups with similar characteristics for specific dates and times.
- + Key Operator Calibration using a Spectrophotometer to ensure the precise color consistency.

bizhub PRESS C1100

- 100 PPM COLOR + B&W
- MAX MONTHLY VOLUME: 3,000,000 PAGES
- TRUE 1,200 X 1,200 DPI, 8-BIT IMAGE RENDERING
- FUNCTIONS: PRINT, COPY, SCAN (1200P IS PRINT ONLY)
- 2015 BLI: OUTSTANDING COLOR MID-VOLUME PRODUCTION DEVICE

imagePRESS c10000VP/c8000VP

- COLOR/B&W: 100 LETTER IMAGES PER MINUTE
- 350 GSM (130LB COVER)
- 2400 X 2400 RESOLUTION
- GLOSS OPTIMIZATION
- DUAL FIXING UNITS
- ON THE FLY COLOR CALIBRATION

bizhub PRESS C1085

- 85 PPM COLOR + B&W
- MAX MONTHLY VOLUME: 330,000 PAGES
- PAPER HANDLING WITH 13,890-SHEET CAPACITY / 55 TO 350 GSM
- 100-SHEET STAPLING UNIT

imagePRESS c7011VPS/c6011VPS

- 70 IPM COLOR + B&W
- MAX MONTHLY VOLUME: 1,000,000 PAGES
- MAX PAPER CAPACITY: 10,000 SHEETS
- OCE PRISMASYNC CONTROLLER
- LOOK AND FEEL OF OFFSET, WITH ONE OF THE WIDEST COLOR GAMUTS IN THE INDUSTRY

bizhub PRESS c1070

- 70 PPM COLOR + B&W
- MAX MONTHLY VOLUME: 280,000 PAGES
- MAX PAPER CAPACITY: 7,500 SHEETS
- IMAGE DENSITY & COLOR DENSITY CONTROL

imagePRESS c700/c800

- 80 IPM SIMPLEX / 70 IPM DUPLEX
- MAX PAPER CAPACITY: 14,000 SHEETS
- ACCURATE REGISTRATION +/- 0.5MM TOLERANCE
- 2400 X 2400 DPI
- AUTO CORRECT COLOR TONE AND ENHANCED AUTO GRADATION ADJUSTMENT FOR MULTIDIMENSIONAL MIXED COLOR CALIBRATION

bizhub PRESS c1060

- 60 PPM COLOR + B&W
- MAX MONTHLY VOLUME: 280,000 PAGES
- MAX PAPER CAPACITY: 7,500 SHEETS
- FUNCTIONS: PRINT, COPY, SCAN

imagePRESS C60

- UP TO 60 IPM COLOR + B&W
- 2400 X 2400 DPI
- COMPACT REGISTRATION TECHNOLOGY
- ADVANCED TWIN BELT FUSING

bizhub PRESS PRO 2250

- MONOCHROME: 250 IPM
- 6,000,000 IMPRESSIONS PER MONTH
- 18,000-SHEET MAXIMUM PAPER CAPACITY
- FUNCTIONS: PRINT, COPY, SCAN

varioPRINT DP 135/120/110

- B&W: 110 /125 /135 IPM
- TRUE DIGITAL PRINTING WITH OCE DIRECTPRESS® TECHNOLOGY
- 600 X 2400 DPI, 1200 X 1200 DPI (ENHANCED)*
- OCE SCREENPOINT®-OPTIMAL QUALITY, LESS OPERATOR INTERVENTION
- SUPERIOR FRONT-TO-BACK REGISTRATION
- OCE HEATXCHANGE TECHNOLOGY REDUCES ENERGY CONSUMPTION

bizhub PRESS PRO 1250

- MONOCHROME: 125 PPM
- 3,000,000 PAGE MONTHLY VOLUME
- UP TO 12 X 18"
- UP TO 350 GSM, DUPLEX CAPABILITY UP TO 300 GSM
- FUNCTIONS: PRINT, COPY, SCAN

imageRUNNER c9075S PRO/ c9065S PRO

- 65 IPM COLOR + B&W
- ERGONOMIC SWIVEL & TILT MONITOR
- SINGLE PASS DUPLEX COLOR SCANNER
- MAX PAPER CAPACITY: 9,300 SHEETS
- HIGH TONER AND DRUM YIELDS AND THE ABILITY TO REPLACE TONER ON THE FLY
